
MULTIHOLE SHEET LINE

Multihole ensures improved dust extraction, meaning less clogging and a longer life time of the sheet, but also better health condition and less cleaning effort!

Maxfilm Multihole Sheets

The former hole pattern (Premium sheets) are replaced by the Maxfilm multihole sheets line. The line has been expanded with a number of grits in size 70 x 126mm. These multihole sheets can be used in combination with our ergonomic multihole handblocks (p. 5).
