Primer Sanding,
Blending, Finishing

The perfect combination of film backing, micro grains and an anti-clogging top coating make Yellow Film the first choice when it comes to mattening & smoothen old paint layers, as well as high-gloss finishing. Yellow Film completely removes the paint structure and any surface irregularities in the top coating. Due to the film backing and anti-burning coating, the risk of burning spots and deep scratches is minimized.

Grit	152 MM - 15H	152 MM - 7H	152 MM	125 MM - 7H	75 MM	35 MM	*Application
P800	524-0800	779-0800	778-0800	555-0800	730-0800		
P1000	524-1000	779-1000	778-1000	555-1000			
P1200	524-1200	779-1200	778-1200	555-1200			
P1500	524-1500	779-1500	778-1500	555-1500	730-1500	881-1500	
P2000	524-2000				730-2000	881-2000	

*See other side for meaning application icons.

FOR MORE AGGRESSIVITY USE
THE HARD INTERFACE PAD. RO
INCREASE UNIFORMITY USE THE
SOFT INTERFACE PAD.
